

Friends of Red Bridge

Friends of Red Bridge is an ad hoc community group dedicated to a comprehensive transportation plan that preserves and enhances the natural, historic, and neighborhood assets of the Red Bridge Road area.

In keeping with City Council Resolution 070587 and the resulting RFP, Friends of Red Bridge has developed alternative plans for a bridge over the Blue River in Minor Park and for Red Bridge Road from Holmes Road to Grandview Road which will not only allow budgeted funds to more reasonably cover the entire project area, but will also enhance the quality of life for those living there. The bridge alternatives will enhance Minor Park and help it to become a true destination area.
